Strikingly Brilliant*

MISSION BELLS Pat. App. For

Beautiful deep salmon-pink Rose opening to a clear, shining color. Long-pointed buds borne on stiff stems, opening to flowers measuring 5 inches or more in diameter, which retain their fine form and color to the end. Mission Bells has a pleasing, tea-scented fragrance. The vigorous, heavily branching plants are covered with an abundance of copper-green foliage, which is disease resistant. This variety has proved hardy in all sections of the country and has the most profuse flowering habit of any Hybrid Tea tested. A Rose of outstanding merit.

SUTTER'S GOLD

Plant Pat. No. 885

Large quantities of long-pointed buds, richly shaded with orange and red, are produced singly at the end of long, straight stems. Ideal for cutting. The buds open to a rich deep orange and various shades of yellow. This variety excels all other yellow Roses in the richness of its perfume. This outstanding Rose was named in commemoration of the 100th anniversary of the discovery of gold at Sutter's Mill in California.

\$2.50 each, \$6.30 for 3, \$25.00 for 12

PEACE. Plant Pat. No. 591

Peace is the first Rose to be awarded the National Gold Medal of the American Rose Society, the highest Rose honor in America. It also received top national awards in France and England. Flowers are extra large and long lasting, their tints of yellow, pale gold, cream and ivory having a varying blush of pink on the ruffled petal edges. The plant has great tall stems and handsome foliage. No such amazing combination of long stems, fine lasting qualities and huge, perfectly formed flowers has ever existed before.

PEACE

FORTY-NINER. Plant Pat. No. 792

The most brilliant bicolor ever produced. The rich chrome-yellow on the outside of the petals contrasts and yet harmonizes with the vivid red inside. Long-pointed buds open into well-shaped, delightfully fragrant flowers. The plant is vigorous, with heavy, long, straight stems relatively free from thorns. Foliage heavy and resistant to disease.

\$2.00 each, \$5.00 for 3, \$20.00 for 12

FANTASIA. Plant Pat. No. 590

A constant mass of bright yellow buds, opening to medium-sized blooms of exquisite form and color. The profuse, bright golden buds are frequently borne in clusters, making it an especially fine variety wherever a gay dash of color is needed. The color ranges from bright yellow in the bud to a delicate cream-yellow as the flowers finish. Very hardy, bushy plants about 30 inches tall.

\$1.50 each, \$3.75 for 3, \$15.00 for 12

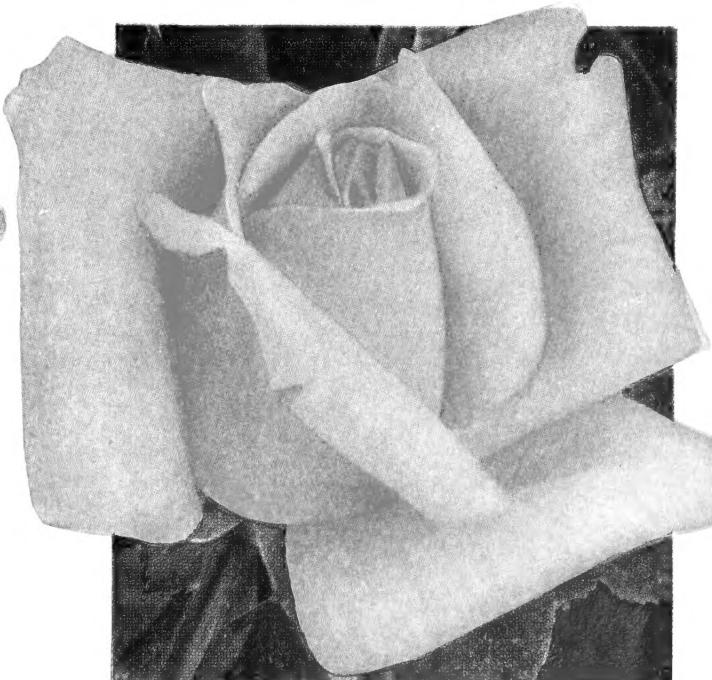

GLOAMING. Plant Pat. No. 137

An outstanding Rose, noted for its large flowers and exhibition quality. A delightful salmon-pink, blending into orange and gold. Buds unfold into a lovelier color that holds interest throughout the life of the flower. Its fragrance is marked and pleasing. Gloaming is a sturdy grower, tall and rugged, and can be depended upon for an outstanding performance in any garden.

BLOOMS 6 INCHES ACROSS

RICH, DELIGHTFUL FRAGRANCE

Capistrano

Pat. App. For
1950 ALL-AMERICA
AWARD

Large buds producing extra-large flowers of heavy texture. A rich shade of deep, glowing rose-pink in the bud as well as open flower, which often reaches 6 inches across. A few blooms will permeate an entire room with their delicious fragrance. Excellent for cut flowers because of sturdy stems and excellent keeping qualities. The foliage is large and leathery, and the plants make sturdy, upright growth, attaining a height of 4 to 5 feet. Because of its great vigor, this variety has proved very disease resistant.

\$2.50 each, \$6.30 for 3, \$25.00 for 12

TIMELY TIP

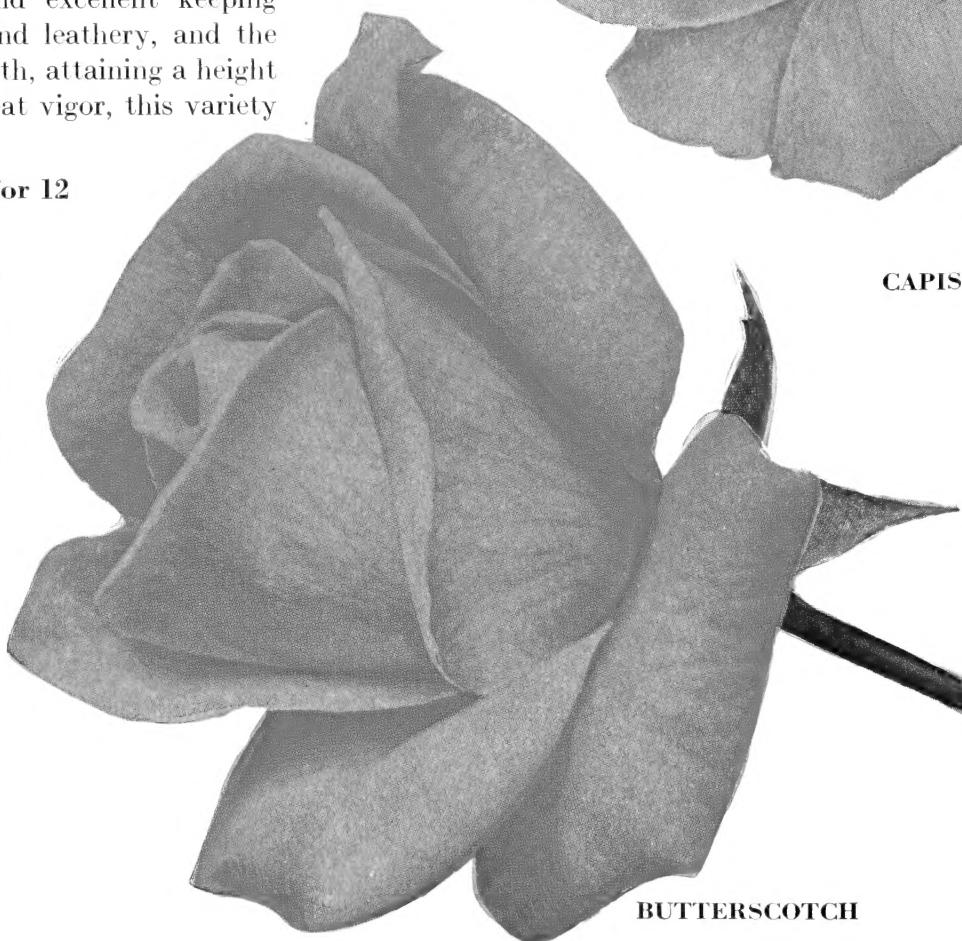

If any of your friends are gardeners, try a Rose plant as a unique gift for an anniversary or birthday. Any garden enthusiast will be pleased with one of the All-America winners as an unusual and lasting gift.

BUTTERSCOTCH

Plant Pat. No. 613.

Long-pointed buds, which open to pale orange-yellow, with lemon-chrome at base. The plant is strong and vigorous, with handsome foliage. An outstanding variety in its class.

\$15.00 for 12

BUTTERSCOTCH

ECLIPSE

RUBAIYAT.

Plant Pat. No. 758

Long, graceful buds of brilliant red, appearing early in June and continuing throughout the summer and into fall. They open to flowers of deep crimson, with the outside of the petals several shades lighter. A remarkable Rose. The plant makes luxuriant growth, extra tall and remarkably disease resistant.

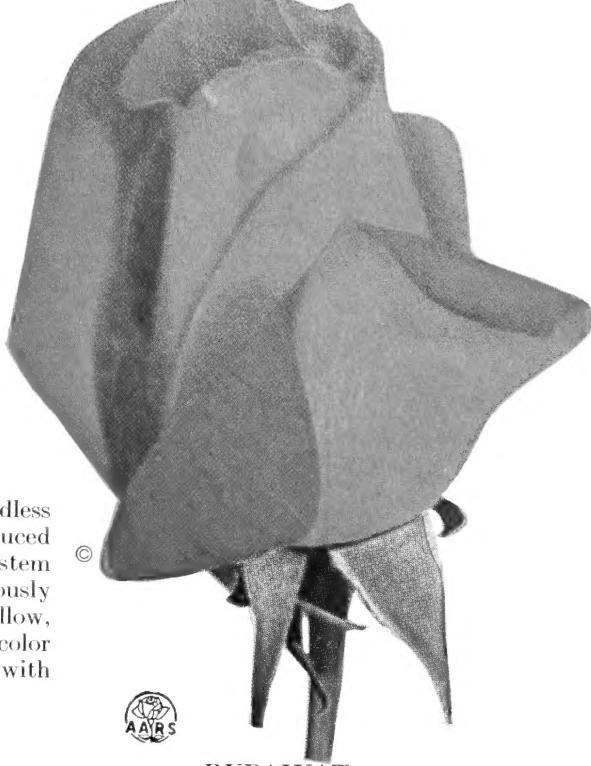

\$1.50 each, \$3.75 for 3,

\$15.00 for 12

ECLIPSE. Plant Pat. No. 172

The Rose with the streamlined bud. An endless procession of long, tapering, 2-inch buds produced on sturdy stems. Each is held erect on a strong stem so that the bud itself stands out conspicuously against the bushy plant. Brilliant golden yellow, 3 to 4-inch blooms that make a striking spot of color in any garden. Plants are vigorously branched, with rich heavy foliage. Very disease resistant.

MIRANDY.

Plant Pat. No. 632

The big, ovoid buds are rich red with dark shadings and open to large, many-petaled flowers of lovely chrysanthemum-red. The flower displays new beauties of form as the petals unfold. This variety has a wonderful, penetrating, damask fragrance—one of the sweetest, most delightful Rose perfumes ever inhaled. Strong and free branching, with heavy stems, it keeps producing glorious flowers all season against a background of dark, heavy-textured foliage.

\$1.50 each, \$3.75 for 3,
\$15.00 for 12

MIRANDY

SHOW GIRL. Plant Pat. No. 646

This Rose, introduced in 1944, has the most perfect and most beautiful deep pink buds you can imagine. The magnificence of the buds and the lasting quality of the flowers, with their heavy-textured petals, makes this one of the finest cutting Roses in the garden. It also is one of the strongest growers, with heavy canes and plenty of lovely flowers borne on long, sturdy stems.

\$1.50 each, \$3.75 for 3, \$15.00 for 12

SHOW GIRL

BLANCHE MALLERIN. Plant Pat. No. 594.

A pure white, fragrant Hybrid Tea Rose. The petals of the beautifully molded blooms are as white as alabaster, with a live satiny sheen as appealing as an Easter lily, with the advantage that the Rose blooms for five months of the year. The streamlined buds come erect on healthy, upright plants and open to beautifully formed blooms 3½ to 4 inches across. Lovely for cutting.

\$1.50 each, \$3.75 for 3, \$15.00 for 12

GRACE MOORE. P.R.R.

Rich dark crimson-red buds, neatly formed, that open to a full flower of over 50 petals. The neat, velvety buds are borne on stiff stems. The plant is bushy and well branched. To us this is an outstanding red Rose and is the favorite of many who have observed it in our fields.

CRIMSON GLORY

CRIMSON GLORY. Plant Pat. No. 105

Beautifully formed blooms of deep, vivid crimson, shaded oxblood-red. This plant branches freely, forming a well-shaped, compact bush of good symmetry. It is not only beautiful but dependable, and its outstanding characteristic is its captivating fragrance. Plant this in your garden and it will be one of your favorites.

VALUE \$6.85 \$5.85 You save \$1.00

DOUGLAS MacARTHUR.
Plant Pat. No. 581

"The Commander's Rose." This vigorous American Rose requires no coddling, asks no favors. The strong bushes send up numerous shoots loaded with buds. It is difficult to describe this flower, as it is a combination of rose-gold and salmon, blended exquisitely together. Good grower and free bloomer.

\$1.50 each, \$3.75 for 3, \$15.00 for 12

DIAMOND JUBILEE. Plant Pat. No. 824.
1948 All-America Winner

The color is a warm buff-orange, deeper in cooler weather, with a touch of orange-yellow at the base of each petal. The flowers, which open slowly, often measure 5 to 6 inches across. They are high centered and fully double, and the heavily textured petals do not fade in warm weather. The rugged plants are vigorous and disease resistant. You will enjoy the warmth of color, the perfection of form, and the delightful Old Rose fragrance that this Rose offers.

DIAMOND JUBILEE

TALLYHO. Plant Pat. No. 828. 1949 All-America Winner

A delightful and unique shade of pink, with the outside of the petals a rich crimson. Before the buds unfold, they are a deep cardinal-red. The long-stemmed buds open slowly and last exceedingly well because they have such heavy substance. Tallyho has nearly all of the characteristics that planters want in a Rose—easy growth, a beautiful bud, remarkably handsome open flowers, rich spicy fragrance, and a delightful color scheme never before seen in a Rose.

\$2.00 each, \$5.00 for 3, \$20.00 for 12

TALLYHO

TAFFETA

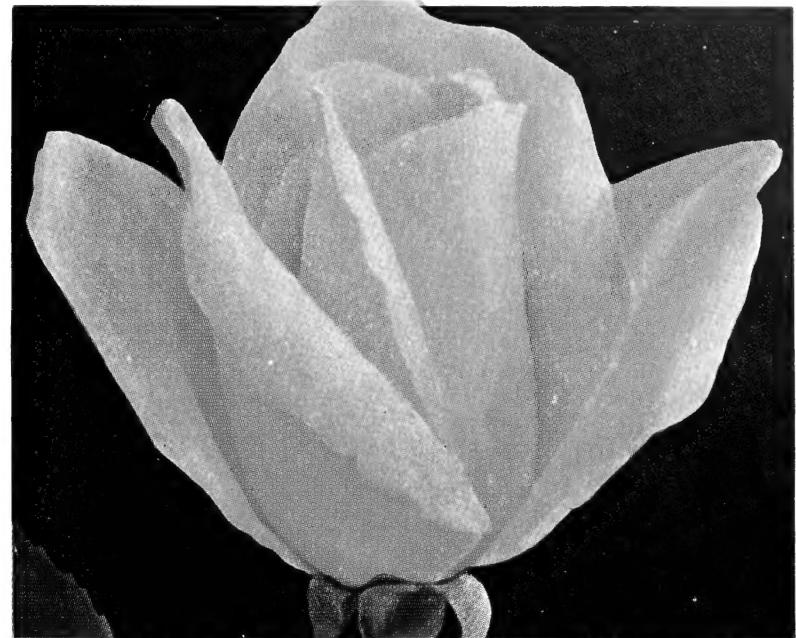

TAFFETA. Plant Pat. No. 716
All-America Selection for 1948

This variety is outstanding for its ability to produce many long-stemmed, perfectly formed, fragrant buds in the rich pink and salmon tones that almost everyone likes. It is difficult to name any one color typical of this variety. At times it may be described as rose-pink, salmon, and apricot, but the predominant color is usually a rich carmine-rose in the bud, changing to begonia-rose in the open flower. Vigorous and upright, better than average size, the plant is moderately bushy, with large, glossy, dark green leaves. Along with this changeable coloring goes a perfect, slender bud form and frilled, delicately veined petals. A perfect Rose for the bud vase.

\$1.50 each, \$3.75 for 3, \$15.00 for 12

MANDALAY. Plant Pat. No. 775

Largest of all yellow Roses, often measuring 6 inches across. The long-pointed bud unfolds into a very large, high-centered bloom of clear, pure gold, which does not fade with age. Hardy, prolific, and resistant to disease. One of the best yellow Roses for the enthusiastic gardener.

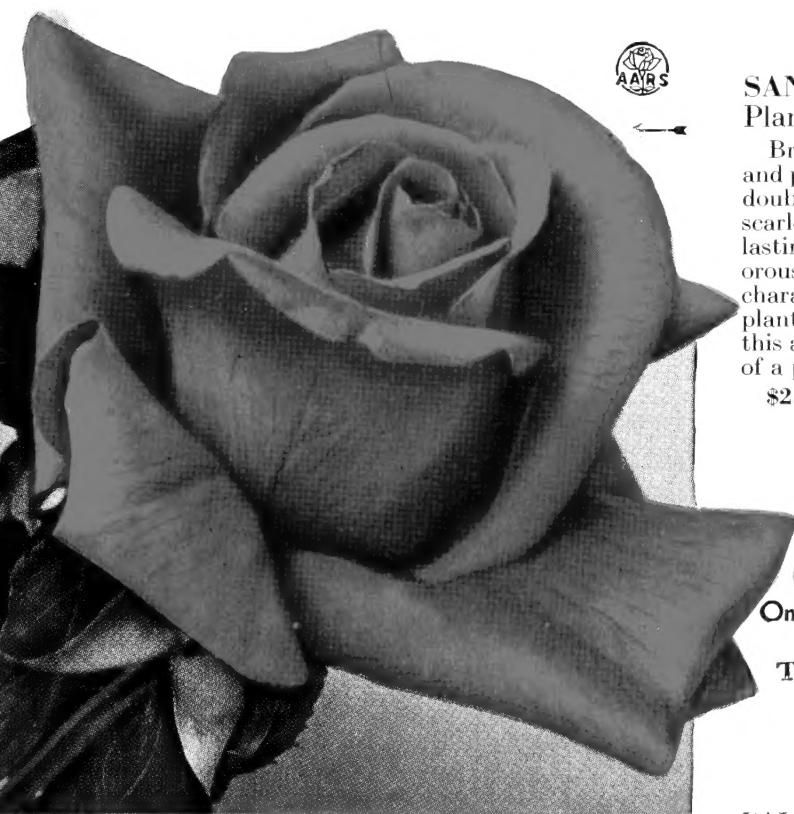

\$2.00 each, \$5.00 for 3, \$20.00 for 12

TIMELY TIP

Prepare Rose beds in advance. Allot a specific space for each plant. Make sure the hole is large enough to allow the roots to spread naturally. Crown or bud union should be level with the ground. Hill the soil up about 8 inches after planting, to protect the plants from drying winds. This soil should be removed when growth is under way.

SAN FERNANDO

SAN FERNANDO.
Plant Pat. No. 785

Bright vermillion buds, long and pointed, give way to fully double flowers of vermillion-scarlet. The intense and lasting fragrance of this glamorous Rose is an outstanding characteristic. A vigorous plant with fine foliage makes this a leading variety, worthy of a place in any garden.

An ovoid bud of dazzling light red, becoming lighter—almost deep pink—in the open flower. Both buds and flowers are exceedingly large in spring and pleasantly fragrant. A vigorous plant a little above average height in the garden, which will have twice as many branches as most other kinds and twice as many flowers. The large, leathery leaves are quite resistant to mildew. Compact, bushy plant with excellent habit of growth. Not illustrated. Winner of Gold Medal at Bagatelle Gardens in Paris.

MME. COCHET-COCHET

MME. COCHET-COCHET. Plant Pat. No. 129

Long-pointed buds of coppery pink, flushed orange, opening to 4½-inch flowers of splendid form and of the same color as the bud except that the orange softens to gold. When open they disclose a mass of golden stamens. As the flower ages, the color changes to soft satiny pink with an attractive tinge, but does not lose any of its loveliness and is usually clear and fresh at all times.

What means: ALL-AMERICA ROSE SELECTIONS

The All-America Award is the highest distinction bestowed in this country on the very best new Roses. Plants are sent to eighteen official test gardens and six demonstration gardens located in different parts of the country so that all major types of climate, soil, and other growing conditions are represented. For two years, expert, impartial judges carefully check the development and growth of all Roses, scoring each one on separate and distinct qualities. The highest scores are then submitted to the National Rose Jury, which selects the winners. Gardeners can buy these new Rose varieties with confidence, knowing they are getting the very best.

SPRING PLANTING

To Our Many Friends and Customers—

In this little Rose book we are attempting to acquaint you with the better Roses that are available today.

Gerard K. Klyn has been growing Roses here in Mentor, Ohio, for the last thirty years. Our farms are located along the shores of Lake Erie where the soil and climatic conditions are most favorable to growing A No. 1 Roses. Mr. Klyn, who grew Roses in Holland before coming to Mentor, supervises and rigidly inspects all operations from the time the understock is set in the ground until the finished plant is dug.

Gerard K. Klyn, Inc., spares no expense to grow Roses properly, dig them carefully, and pack them so they reach you in the very best condition.

We will pay the postage on all shipments, and we guarantee the plants to bloom at the next normal flowering period after planting provided you follow our instructions. Full instructions will be found in each shipment.

See for Yourself—

One-half million Rose plants are growing here in the fields of GERARD K. KLYN, INC., at MENTOR, OHIO, and we cordially invite you to come to see them.

We are located twenty miles east of Cleveland. Our office is on Hopkins Road, near the intersection of Jackson Street. To reach it, turn north off U. S. Route 20 at Hopkins Road (Mentor School buildings are on the corner) and continue for three-fourths of a mile; immediately after crossing Jackson Street, you will see our office.

BUYING ROSES IS A MATTER OF CONFIDENCE

Buy Only from a Reliable Grower!

We have been told by many of our customers that we are the only nursery in the north-central part of the United States which sends out Roses with the rating of "Excellent." We intend to keep faith with those customers, and by so doing, we will help you to build a better garden and enjoy much more happiness from your plants, making you also, one of our satisfied customers.

CHARLOTTE ARMSTRONG

ERNIE PYLE. Plant Pat. No. 673

Gloriously free flowering, of limitless beauty and charm, this Rose was named to honor one of America's best-loved war correspondents. Ovoid buds of warm rose-pink color open slowly to create an extravagant display of rose-pink blooms, to which a suffusion of yellow starting at the base of the petals gives an extra glow. A vigorous and bushy plant growing 2 to 2½ feet high.

\$1.50 each, \$3.75 for 3, \$15.00 for 12

TIMELY TIP

Roses favor full sunshine. Six hours a day is sufficient. Afternoon sun may cause some varieties to fade. Early sun dries the foliage quickly, and helps to prevent black-spot and other diseases.

McGREDY'S SUNSET.

Plant Pat. No. 317

A glorious orange-yellow overlaid with salmon. Large fragrant blooms, hold their perfect form even when cut. One of the most loved of all the McGredy's Roses.

\$1.35 each, \$3.40 for 3, \$13.50 for 12

McGREDY'S SUNSET

GRANDE DUCHESSE CHARLOTTE

Plant Pat. No. 774

The interesting buds are a rich claret color, changing to a lovely begonia-rose as the flowers age. This variety provides a color unknown before in the Rose world. When unfolding, the petals recurve and make a delightful, informal, yet artistic flower, having a rich fruity fragrance.

HILL TOP. Plant Pat. No. 525*Not Illustrated*

Hill Top is one of the most recent and one of the best introductions of the Jos. H. Hill Company. The molded flowers have outward-rolled petals, quite pointed, creating an effect much sought after in Roses. The color at opening is deep buff; the center remains that shade, while the outer petals change to a soft pink-buff. Strong and free flowering, it makes a fine garden variety.

Climbing Roses

You Need No "Green Thumb" to Grow Klyn's Climbers!

BLAZE. Plant Pat. No. 10

The outstanding red Climber of today. Easy to grow, it requires no special attention. The blooms are brilliant red. Once the plants are established, you will be most happy with hundreds of clusters of cup-shaped flowers that completely cover the plant. One should bear in mind when trimming this bush to remove only the spent flowers, as new blooming wood for the following year is produced from the eyes immediately below the flower cluster.

NEW DAWN

NEW DAWN. Everblooming Climber.

Exceptionally hardy, this plant produces Hybrid-Tea-like blossoms of dainty pink flushed with a deeper tone, from June until freezing weather. The buds are pointed, on long stems, making it ideal for bouquets and arrangements. The apple-blossom-pink flowers that are produced so freely have an appealing fragrance. Just the plant for a trellis, arbor or fence.

A New Color for a Rose

FASHION, an exquisite new Floribunda, promises to be one of the most popular new Roses with its interest and high novelty appeal. The color is something new for the Rose world, and the plant gives a constant mass of flowers throughout the entire season.

The color is luminous coral-pink overlaid with gold, which softens to a clear coral and then deepens to reddish tones at the finishing stage. The buds are an interesting oriental red, are pointed and open slowly into lovely miniature Hybrid Tea form.

The open blooms are about $3\frac{1}{2}$ inches, sometimes larger. The bud opens slowly into a wide-open flower with graceful wavy petals and a rich display of golden yellow stamens. It has an enchanting Old Rose fragrance.

The plant is full, bushy and very generous. It reaches a height of $2\frac{1}{2}$ to 3 feet. The dark glossy green foliage is richly attractive and hangs on well, right down to the ground.

In England where *Fashion* was exhibited at the National Rose Society's summer show, it was given the gold medal for the best new variety shown. The *London Evening Standard* said it was "the sensation of the show."

GOLDILOCKS. Plant Pat. No. 672

Handsome clusters of cup-shaped blooms, opening to 3½ inches across. Buds are ovoid in shape, resembling a Hybrid Tea in form, and rich golden yellow in color. The plants have a dense, spreading habit of growth and attain a height of about 3 feet. Each plant is a continuous bloomer, new buds coming almost daily. Just the plant for the border, or better still, for a bed. They will make a mass of color and become a point of special interest in your garden. Can also be used as a base planting to brighten up evergreens and shrubs. Plant at least three of these beauties in your garden and you will be overjoyed next blooming season.

RED RIPPLES

A clear true red in both bud and open flower. The wavy-petaled blooms come in great masses and continue to appear later in the fall than most varieties. Tall growing, upright, and vigorous, it is a sensation as a hedge. In good soil and under favorable conditions, it will grow 4 feet tall or more. Constantly in bloom, the flowers are always well distributed over the plant.

PINOCCHIO

PINOCCHIO. Plant Pat. No. 481

Extremely hardy, very easy to grow, always in bloom, with hundreds of flowers on every bush. Great clusters of exquisitely pointed buds open gradually to long-lasting, diminutive Hybrid Tea-like blooms $1\frac{1}{2}$ inches across. The buds are rich salmon, flushed with gold at the base, gradually changing to clear pink as the flower opens. Pinocchio is very effective when planted in shrub and evergreen borders and gives a riot of color all summer after the flowering shrubs are done. Excellent for massing along paths or borders. One of the best all-purpose Roses.
